

Managing your  
project as our own

## OUR COMMITMENT

We commit to meeting client needs applying proven methods and ensuring continuous fine-tuning of working methods and employee skills. Our business philosophy has allowed us to build sustained partnerships with clients over the years. With integrity, excellence, commitment and entrepreneurship as core values, we stay on top of our clients' evolving needs.

## ROCHE AT A GLANCE

One of the largest Canadian engineering construction firms, Roche Ltd, Consulting Group (Roche) delivers customized solutions designed by leading human and technical resources. Additionally, Roche develops an innovative, global approach for each of its many clients. When you partner with Roche, you have access to a network of multifunctional and complementary resources that work together to ensure the success of your projects.

Roche also relies on an extensive international network of specialists that provide a comprehensive range of services in North America and elsewhere throughout the world.

Roche specializes in integrated projects. Fully aware of ever increasing constraints imposed on its clients, Roche offers highly flexible project options.

Above all, Roche provides clients with invaluable peace of mind for the simple reason that we focus on

**"Managing your projects as our own".**

Managing your project as our own

## SUSTAINABLE DEVELOPMENT, A CORNERSTONE OF OUR OPERATIONS

Sustainable development now forms an integral part of our business process and working methods. At Roche, we incorporate the principles of sustainable development into your engineering construction projects and take social, economic and environmental issues into consideration. For Roche, sustainable development means harmonizing community development with environmental protection while ensuring economic growth.

## OUR EMPLOYEES: THE BACKBONE OF OUR COMPANY

We provide our employees with a stimulating working environment along with many employee benefits and programs. Our growth has secured our presence both in Quebec and worldwide, and brought new human resources talent to the firm. Our high-calibre professionals deliver a high level of efficiency to project operations.

### PROFILE

Roche Ltd., Consulting Group is a major Canadian engineering-construction company due to the knowledge and professionalism of its 1,400 employees. Roche was founded in La Malbaie, Quebec, in 1963. Its field of activity goes beyond Quebec's borders, extending to Canada and more than 50 countries.

### VISION

Distinguish ourselves by committing to excellence and integrity with both our clients and employees.

### MISSION

To implement innovative solutions adapted to each of our clients needs.

### QUALITY POLICY

Roche's management, as well as all of its employees are committed to making our company a leader in terms of the quality of our professional services.

Integrity, excellence, commitment and entrepreneurship are the values which stand behind our promise.
